HISTORY

The roots of 4 Seasons Outdoor go back to 1967 when my parents started their Retail business in Nijmegen, The Netherlands. In the early 70's they also started selling garden furniture. From the mid-eighties the trade in garden furniture became their core business with production mainly in Europe.

In 1999 I took over the family business and in 2003 we created our brand 4 Seasons Outdoor. High quality, great comfort, all-weather abilities, unique designs and value for money were my main criteria as they still are today. With our own manufacturing facilities both in Indonesia and China, we are in complete control of the production process from initial design concept to final furniture in your garden. 4 Seasons Outdoor has become a premium brand in garden furniture with products selling worldwide.

More than 2000 people are involved in our production process. With our own offices and showrooms in The Netherlands, Belgium, Germany and the UK we are fully aware of the local needs and are now widely recognised as specialists in offering **the world's finest garden furniture.**

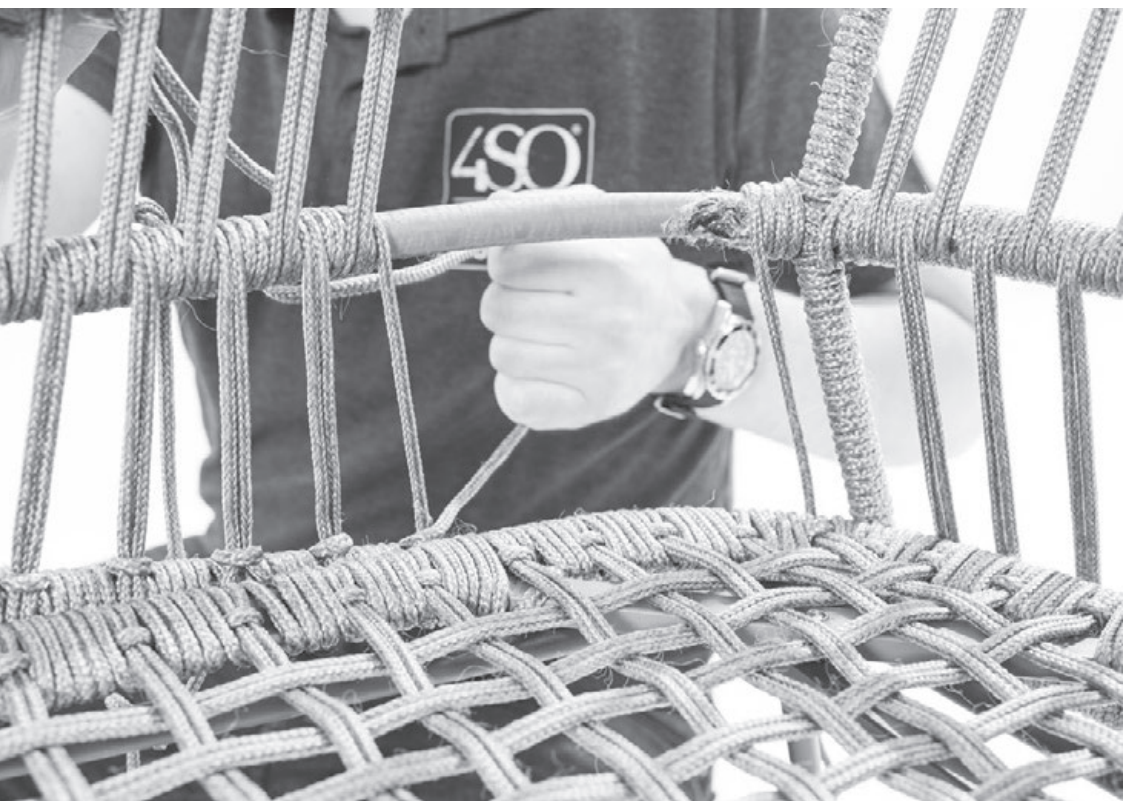

Nowadays we are a premium brand selling our beautiful garden furniture collections worldwide. We continue to develop new designs, new materials and new combinations using our main criteria of creativity, quality and craftsmanship. Our goal is to keep surprising the world with extraordinary, innovative, timeless and trendy garden furniture styles. This is our main mission and our continued drive.

Frits Wolf

4 Seasons Outdoor

DESIGN & QUALITY

Everything starts with an idea, a sketch for a new design. Our own team creates and develops the designs. With great love and attention for comfort and durability, but also for a lovely comfortable arm rest, special chair legs and surprising colour combinations. Together with our weaving specialists and designers we've been developing extraordinarily, innovative and solid models for nearly 20 years. We use only the finest materials. That's why we offer 10 year warranty on our Hularo wicker products.

HANDMADE

On average our weaving specialists spend 3 days on one piece of furniture. Every piece of furniture is crafted with a lot of care and attention, as you will see and feel. Quality, craftsmanship and a love for design: those are the three ingredients that constitute 4 Seasons Outdoor garden furniture.

ICONS EXPLANATION

ALL WEATHER CUSHIONS

4 Seasons Outdoor furniture is durable and weather resistant, what about our cushions? All of our collections have cushions with an Olefin cover (mostly with a zipper) and an anti-mould foam inside. This Olefin fabric can stand UV rays, temperature differences and dries fast. We do advise to cover your cushions to avoid stains caused by any other influences, and enjoy your 4SO furniture directly after a heavy shower.

HULARO

All 4SO wicker is covered by 10 year warranty, but how is that possible? Hularo wicker is synonymous with the absolute top in synthetic wicker. It's easy to clean, durable and resistant to UV rays - salt water - lotions - chlorine and alcohol. The material contains no hazardous substances and can be fully recycled.

STAINLESS STEEL

A luxurious material with perfect outdoor abilities, used in a wide range of 4SO furniture. Stainless steel is strong and slightly flexible, in several collections we use a powdercoated tube with a sophisticated design.

ALUMINIUM

This weather-resistant material is very suitable for outdoor use. Processing of this material is simple, which means that the application of aluminum is very diverse. You can find this lightweight material throughout our collection.

TEAK

In all 4 Seasons Outdoor ranges, when applied we only use high quality Teak wood with a SVLK/V-legal certificate. Teak hardwood has natural oils inside that make it withstand the weather conditions. The natural defense mechanism of Teak turns the outside in a light grey look, depending on the weather conditions it may take 3 – 12 months. We offer a wide range of 4SO maintenance products for cleaning and treating your Teak wood, finishing it in your preferred look!

HPL

The fabulous look of stone or wood material, but lightweight and easy maintenance: the ideal tabletop is here. High Pressure Laminate is a technical material, it's made out of many polyester layers that collide by very high pressure and temperature. This process creates a very solid, weather resistant base. The bottom and top layers are available in several looks and seal the base from dirt, moist and UV rays. That's why HPL tops are easy to clean, low in maintenance and perfect for outdoor use.

ROPE

All of our rope materials have a polypropylene base or weave, assuring the rope remains taut. The cover is made of an acrylic fabric that is very UV resistant, water repellent and has a comfortable feel. 4SO Rope contains no hazardous materials and can be fully recycled, we provide 5-year warranty on construction and manufacturing failures.

CORD

This synthetic, woven cord has a vintage look. Made of 100% polyethylene you could compare it with wicker that looks like a tough rope. Our cord is strong, colorfast and weather resistant.

CALPI

living

With this series of uniquely designed furniture, we offer exceptional styles of exposed frames combined with exclusively knotted rope patterns. Dine in style and get comfortable. No matter the weather, Calpi brings people together.

ROPE

You will see this weather-resistant material a lot in our collections. But what exactly is it and why is Rope so suitable for 4SO garden furniture?

We use several variants, but one thing they have in common. All Ropes have a polyethylene core and an Olefin sheath. This combination ensures its strength, its durability and its soft appearance.

Every unique piece of furniture in our Rope collections is handmade with passion. Thanks to a lot of experience, knowledge and love for the profession we are able to apply the most complex techniques.
